SUMMARY

I'm a Full-Stack Developer with 2+ years of experience building production web applications with Next.js, React, Node.js and TypeScript. I founded Sunflow, a hotel operations platform with AI reporting, and built it end to end, from database design to deployment. At ROCR Digital, I currently work on both the backend (Bun, Elysia, PostgreSQL, Redis, NATS) and frontend (Next.js) of a CRM platform with inventory tracking and real-time messaging. Before that, I built frontends for e-commerce, corporate websites and a marketplace platform. I have hands-on experience with REST API design, authentication, state management with Redux Toolkit and RTK Query, PostgreSQL/MongoDB and React Native mobile apps.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL
- **Frontend:** React, Next.js (App Router), Redux Toolkit, RTK Query, Tailwind CSS, shadcn/ui, Radix UI, PrimeReact, React Hook Form, Zod, Framer Motion, Recharts, Tiptap, dnd-kit, next-intl (i18n), responsive design, SEO
- **Backend:** Node.js, Bun, Elysia, Express.js, REST APIs, OpenAPI, WebSocket, NATS, Redis, Nodemailer, Multer, rate limiting
- **Databases & ORM:** PostgreSQL (Neon), MongoDB (Mongoose), MySQL, Prisma, Drizzle ORM, Convex
- **Auth & Security:** JWT, Better Auth, Clerk, Google OAuth, bcrypt, email verification, role-based access control
- **Mobile:** React Native, Expo, Expo Router, NativeWind
- **Tools & DevOps:** Docker, AWS S3, Git, GitHub, Vercel, Netlify, Bun test, React Testing Library, Figma

PROFESSIONAL EXPERIENCE

Full-Stack Developer

May 2026 – Present

ROCR Digital — Antalya, Turkey (Hybrid)

- Work end to end on a CRM platform across both the backend and the frontend; the application runs containerized with Docker.
- Backend built in TypeScript with Bun + Elysia: PostgreSQL with Drizzle ORM for the data model, Better Auth for authentication and OpenAPI for API documentation.
- Built the material/inventory tracking module for registering, tracking and managing materials, with Excel, PDF and QR code outputs (ExcelJS, pdf-lib, qrcode).
- Developed the in-app real-time messaging system on NATS and Redis (ioredis), with file uploads through AWS S3 presigned URLs.
- Build the frontend with Next.js 16 and React 19: Redux Toolkit + redux-persist, Tailwind CSS v4, shadcn/ui, React Hook Form + Zod, a Tiptap rich-text editor, drag-and-drop with dnd-kit and i18n with next-intl.
- Quality and security: Sentry error monitoring, Pino logging, XSS protection with sanitize-html/DOMPurify, Cloudflare Turnstile bot protection, k6 load testing (smoke, stress, soak) and Bun test.
- Tech: Next.js, React, TypeScript, Bun, Elysia, PostgreSQL, Drizzle ORM, Redis, NATS, AWS S3, Docker.

Founder & Full-Stack Developer

Jul 2025 – Present

Sunflow (sunflowapp.com) — Antalya, Turkey

- Built a SaaS platform from scratch that digitizes hotel F&B and guest services; it is now live in 4 hotels.
- Built QR-based ordering from rooms, pool, beach and restaurants with no app download, routing orders instantly to the kitchen and relevant departments.
- Built à la carte restaurant reservations inside the same guest portal.
- Built room service with live order status, instant guest notifications, digital menu management and role-based manager and staff panels.
- Built AI reports shown in the admin panel and emailed to managers daily, weekly and monthly, and a guest app in 5 languages (TR, EN, DE, FR, RU).
- Sunflow took 2nd place in the TourisTech program (Martı Awards, April 2026).
- Tech: Next.js, Node.js, TypeScript, PostgreSQL, AI APIs.

Frontend Developer

Jun 2024 – Jun 2025

Tekera Teknoloji — Antalya, Turkey (On-site)

- Developed the frontend of Arzuamber, a live e-commerce site: product listing, filtering, product detail, cart and checkout flows.

- Built Tekera Teknoloji's official corporate websites with responsive, SEO-friendly pages.
- Worked through most of the development phase of a multi-vendor marketplace platform, building storefront and seller dashboard interfaces.
- Integrated REST APIs with the backend team and set up state and data fetching with Redux Toolkit and RTK Query.
- Tech: Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query.

Software Developer Intern Mar 2024 – May 2024

CV Banko Teknoloji ve İnsan Kaynakları — Remote

- Developed backend features and REST API endpoints with JavaScript and Node.js.

Software Developer Intern Jun 2023 – Aug 2023

Softalya Software Inc. — Antalya, Turkey

- Worked on backend web development and HTML5/JavaScript interfaces as part of the development team.

PERSONAL PROJECTS

Spotlight — Social Media Mobile App GitHub

React Native, Expo, TypeScript, Convex, Clerk, NativeWind, Reanimated

- Built an Instagram-style mobile app with posts, likes, comments, follows, bookmarks and real-time notifications.
- Designed a Convex real-time backend with 7 indexed tables (users, posts, likes, comments, follows, notifications, bookmarks).
- Implemented Clerk authentication (Expo SecureStore), image upload with Expo Image Picker and tab navigation with Expo Router.

Note App — Rich-Text Notes Web App GitHub

Next.js, TypeScript, Better Auth, Drizzle ORM, PostgreSQL (Neon), shadcn/ui, Tiptap

- Built a full-stack notes app with a Tiptap rich-text editor, dark mode and URL-synced state (nuqs).
- Implemented Better Auth with email/password, Google OAuth, email verification and password reset emails via Nodemailer.
- Designed the data model with PostgreSQL and Drizzle ORM; validated forms with React Hook Form and Zod.

Expense Tracker — Finance Dashboard GitHub

React, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB, Recharts

- Built a MERN app with a chart dashboard for income and expenses and Excel export of transactions.
- Wrote a versioned REST API (/api/v1) with JWT auth, bcrypt, rate limiting, CORS and image upload via Multer.
- Managed state with Redux Toolkit and deployed the app on Vercel.

EDUCATION

Antalya Bilim University 2022 – 2024

Associate Degree, Computer Programming

Akdeniz University 2018 – 2020

Associate Degree, First and Emergency Aid

LANGUAGES

Turkish (Native) | English (Elementary, A2)
